FOR IMMEDIATE RELEASE

## **Radius Packaging Announces Collaboration with LyondellBasell**

**NEW BERLIN, Wisconsin, October 05, 2023—**

Radius Packaging proudly announces a collaboration with one of the world's largest polymer producers, LyondellBasell. Radius is now equipped to manufacture bottles in a clarified polypropylene material.

The LyondellBasell polypropylene resin is typically used in blow molding and extrusion applications and offers excellent see-through and contact clarity, making it ideal for consumer goods. Polypropylene resins offer a broad range of characteristics and are used in a wide variety of customer applications for automotive, electrical appliances, building and construction, and furniture components. Additionally, polypropylene is capable of being recycled where facilities exist.

"LyondellBasell is enthusiastic to work with Radius to help execute their strategy and help unlock value for their customers," said Johanna Jones, Sr. Director of Polyolefins Marketing, LyondellBasell. "Our Pro-fax polypropylene resin will enable Radius to meet their customer demands while delivering a solution that is technically capable of being recycled."

Continuous improvement and innovation are at the center of Radius Packaging's growth strategy. The addition of the LyondellBasell polypropylene resin comes in tandem with the transition out of proprietary extrusion blow molding machines and into Rocheleau machines. Radius currently offers 160 oz. and 64 oz. handleware stock bottles.

Chris Haag, Director of Supply Chain for Radius notes, "We are really excited about this collaboration with LyondellBasell and are intrigued by the diverse material offerings which include injection and extrusion grade HDPE and PP." Radius looks forward to expanding product offerings and capabilities while continuing to build on the relationship with LyondellBasell.

### **About Radius Packaging**

Radius Packaging is a leading manufacturer of rigid plastic packaging products in the Midwest. With blow molding, injection molding, and labeling capabilities, Radius offers complete rigid plastic packaging solutions. From its two state-of-the-art facilities in southeastern WI, Radius offers the expertise and flexibility to deliver off-the-shelf, tailored, and custom solutions for a wide variety of applications. Radius customers include many blue chip national and regional consumer packaged goods companies and contract packagers and fillers serving a diverse set of markets, including food and specialty beverage, home care, professional cleaning, nutrition and wellness, and pet care. Radius specializes in short- to mid-run packaging solutions for even the most complex needs. From concept to commercialization, Radius creates innovative, functional, and sustainable solutions supported by a dedicated team of packaging experts who put customers first.

### **About LyondellBasell**

We are LyondellBasell – a leader in the global chemical industry creating solutions for everyday sustainable living. Through advanced technology and focused investments, we are enabling a circular and low carbon economy. Across all we do, we aim to unlock value for our customers, investors and society. As one of the world’s largest producers of polymers and a leader in polyolefin technologies, we develop, manufacture and market high-quality and innovative products for applications ranging from sustainable transportation and food safety to clean water and quality healthcare.
